

*Perky*  
**PUMPKIN**  
RADIANCE BOOSTING &  
FIRMING FACIAL

**BEST ENJOYED:** When the leaves start to change

**THE MOOD:** Flawless skin - now being served!

**EXPERIENCE:** Say goodbye to dull and dry complexions with this 8-course pumpkin facial! A creamy green tea and coconut milk wash cleans and hydrates your skin, before a luxe Vitamin Berry Tonic is spritzed. All this is followed by the clarifying Sand Your Ground, an Arizona red mineral mud exfoliator that smooths away dead skin and soothes with desert willow bark. You'll be painted in Splendid Dirt, an organic pumpkin puree nutrient mud mask that tingles as it purifies and shrinks the look of your pores. Irritations and pigmentation are banished with Spotted Leaving, a peptide-enhanced brightening serum. Next, you'll be pampered with Three Milk Ageless Moisturizer, a botanical milk blend with peptides that work to plump deep wrinkles. Finally, this perky pumpkin gets an eye lift – with Crow Catcher – a clinically tested serum that makes crow's feet start running for the hills.
